About Golden Machinery

Golden Machinery is a trusted manufacturer with **over six decades of excellence** in mechanical power transmission products. We are renowned for precision-crafted pulleys, couplings and block bearings, including Patta Pulleys, Solid V-Belt Pulleys, Poly-V Pulleys and Couplings.

Quality has defined our success for the last 60 years. Customer satisfaction is our paramount goal, and we take pride in offering world-class products at competitive prices. Beyond transactions, we build lasting relationships and treat every customer as part of our extended family.

We adapt to evolving industry dynamics, ensuring our products meet the highest standards of reliability and durability, and we keep providing solutions that help industries succeed. Choose Golden Machinery for products that embody decades of dedication to quality – and a relationship for life.

Our Vision

To emerge as the foremost and distinguished manufacturer of pulleys and couplings in India, setting benchmarks in both quality and quantity – by giving customers reliable, cost-effective solutions for all their mechanical power transmission requirements.

Our Mission

To consistently deliver excellence by prioritising customer satisfaction and industry advancement: on-time delivery of defect-free products, minimal wastage through sustainable practices, and cost efficiency through continuous value engineering.

Why Choose Golden Pulleys

Every pulley is made to run true, last long and keep your drive efficient.

01

Adherence to Standards

Manufactured in strict accordance with industry standards, ensuring reliability and consistent performance.

02

Precision Balance & Machining

Each pulley is carefully balanced and precisely machined, giving a component that runs smoothly and efficiently.

03

Energy Efficiency

Accurate matching of belts and grooves optimises power transmission and helps reduce energy consumption.

04

High-Quality Casting Material

Built from the best available casting materials for durability and a robust foundation.

05

Minimal Runout & Wobble

Construction designed to eliminate runout and wobble – vital for maximising belt life and minimising wear and tear.

Have a requirement?

Share the pulley type, diameter, bore and groove details – our team will get back to you.

V-Belt Pulleys

Precision-grooved pulleys for smooth, efficient belt drives

01

Solid V-Belt Pulley

02

Plain V-Belt Pulley

03

Split V-Belt Pulley

04

Step V-Belt Pulley

05

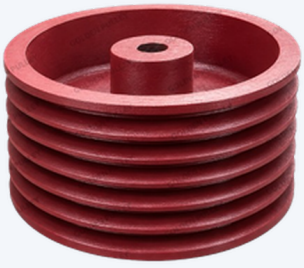

Bearing V-Belt Pulley

06

Jutta V-Belt Pulley

07

Heavy Duty V-Belt Pulley

08

Taper Lock Pulley

Patta & Crown Pulleys

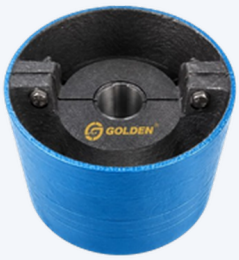

Flat-belt and crown pulleys built for heavy industrial duty

09

Patta Pulley

10

Split Patta Pulley

11

Patta Belt Pulley

12

MS Patta Pulley

13

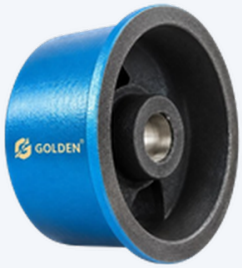

Split Crown Patta Pulley

14

Solid Crown Pulley

15

Collar Pulley

Application Pulleys

16

Motor Pulley

17

Engine Pulley

18

Thali Pulley

19

Elevator Pulley

Couplings, Bearings & Equipment

20

Muff Coupling

21

Block Bearing

22

MS Eccentric Bearing

23

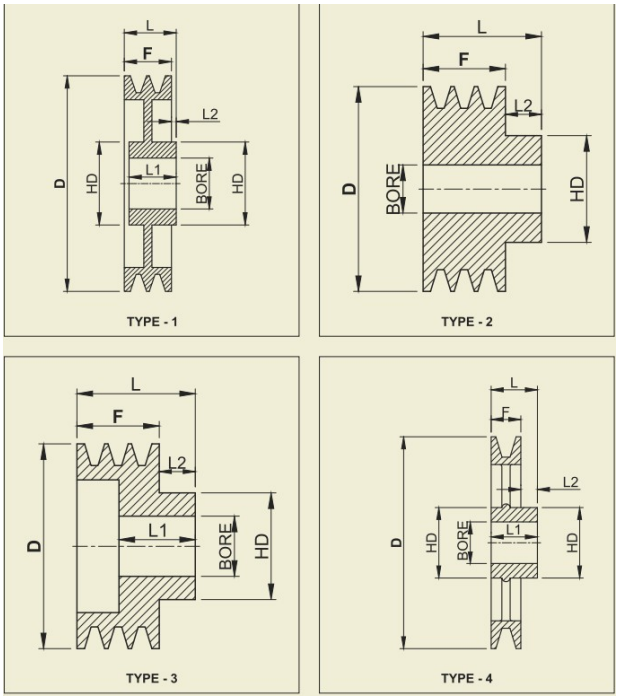

Airlock

Technical Drawings

V-Belt Pulley

Types 1 to 4

Crown Patta Pulley

Construction and dimensional views

How to Specify Your Pulley

1. Pulley type (V-belt, patta, crown, etc.)
2. Outer diameter (D) and bore size
3. Belt section and number of grooves
4. Keyway / hub details and mounting style
5. Material required and quantity
6. Application and motor / machine details

Industries We Serve

- Chemical Industry
- AHU Manufacturing
- Material Handling Equipment
- Sugar Plants
- Textile Industry
- Dal & Rice Mill Plants
- Crusher Industry
- Paper Plant Industry
- Agri Processing Equipment

Let’s build your next drive together

Send us your requirement – our team will get back to you with the right solution.

UNIT 1
7/12A, Lane Gaushala, Pathwari
Agra – 282004

UNIT 2
7 Vidhya Puram, Rambagh
Agra – 282004
